---

I was very impressed with a [used car supermarket Kings Lynn](#) called Stebbings Car Superstore. I was recently made redundant and had to return my company car to the vehicle leasing company. I have driven a company VW Golf TDi for the last four years and had the luxury of car tax, vehicle servicing, new tyres and car insurance being paid for by my employer. I have not had to buy a new car for many years and was confused as to whether to buy a small car like a MINI or Ford Fiesta and if a petrol or diesel was best. The salesman at Stebbings was not pushy at all and really helped me find the right car at a cheap used car price.
